MISS DENSMORE, CHICAGO.

It quickly cradicates all trace of scalp bacteris, which is the cause of hair falling, dandruff and baldness. NO SCALP CAN BE HEALTHY AND NO HAIR CAN BE BEAUTIFUL WHEN CONTAMINATED WITH THESE DISEASE-BREEDING CREATURES; they undermine the hair and devour all the nutriment or life-sap of the scalp, without which the scalp dries up and peals off, forming dandroff and causing the loss of hair. DANDERINE IS THE ONLY REMEDY IN THE WORLD THAT WILL DESTROY THESE GERMS: It repetrates the scale thoroughly, carrying with it all the necessary properties to quickly regenerate all the impoverished parts. It rebuilds the lost throces of the scalp and renews the growth of the hair in every case. A few applications will make the hair fairly sparkle with new life and vigor. Judge Adams has set the case, originally, for July 9, in St. Louis, but plans that he had for joining his family at Woodstock hastened his departure. the answer of the World's Fair Company as to why the temporary injunction preventing them from hing condemnation proceedings against the Tesson tract should not be made permanent. The paintiffs, Mrs. Laura Tesson and other hears, who are owners of the property, based their plea for an injunction on the claim that they were being deprived of their rights as citizens under the first section of the fourteenth amendment to the Constitution, which provides immunity from unlawful procedure. The injunction was the outgrowth of the fallure of President Francis and Mrs. Laura Tesson to come to an agreement for the lease of 1.500 feet of her property along Skinker road and contiguous to the Exposition site. President Francis offered &500 an acre of sixteen acres comprised in the desired strip of ground, and Mrs. Tesson male a counter proposal to sell the land at \$19,000 an acre, which was refused upon the pica that the World's Pair Corporation had no right to use its public funds for the purpose of purchasing property because of its temporary life.
